OIT-0700-87  
24 September 1987

MEMORANDUM FOR: Deputy Director for Administration

FROM: Edward J. Maloney  
Director of Information Technology

SUBJECT: Weekly Report for Week Ending 25 September 1987

25X1 1. Cray Research engineers completed a final inspection of the site for the Cray computer to be installed in the New Headquarters Building. The facility successfully passed the inspection and the support devices, power and refrigeration, were certified as operational. The computer and its peripherals will arrive at the Agency on 28 September. [ ]

25X1 2. An IBM 3081 mainframe computer, referred to as "SYE", has been installed in the New Headquarters Building. It will serve as the front-end processor for the Cray. [ ]

25X1 3. OIT representatives met with representatives from the Office of Communications to address key issues concerning the Agency communications network. This was the first in a series of monthly meetings to focus on joint planning and the compatibility of foreign and domestic communications. [ ]

25X1 4. Priority installation of data communications terminals for the Office of the DCI was completed within 24 hours of receiving the request. This included shipping the terminals from the warehouse, installing the equipment, and making final adjustments to ensure proper operation. [ ]

25X1 5. OIT is proceeding with the installation of a Wang Alliance system in the Ames Building for the Insurance Branch, Office of [ ] [ ]
